

Education Council Goals for May 19th Summit

- Consider adding a part-time senior adult minister.
- Examine ways to develop better access to the sanctuary for those with walkers, wheel chairs etc. (Ex: an outside elevator).
- Establish security policies and procedures in the event of emergencies, such as medical or terror threats. (We realize there are some procedures in place, maybe need better publicity.)
- Offer a worship service at an alternative time and in an alternative format.
- Offer a divorce recovery program for teens.
- Address the aesthetic needs of the preschool (first) floor by developing a plan to replace the furniture, paint all rooms and hallway, and replace the carpet.
- Initiate Bible Study options for College students, Singles and DINKS (double income no kids).
- Provide Special Needs Ministry which should include staffing, training teachers, developing classes as needed.
